Games and 3D User Interfaces: Past, Present, and Future

Lecture #2: Games and 3DUI* Spring 2015 Joseph J. LaViola Jr.

*Special thanks to Ivan Poupyrev

CAP6121 – 3D User Interfaces for Games and Virtual Reality

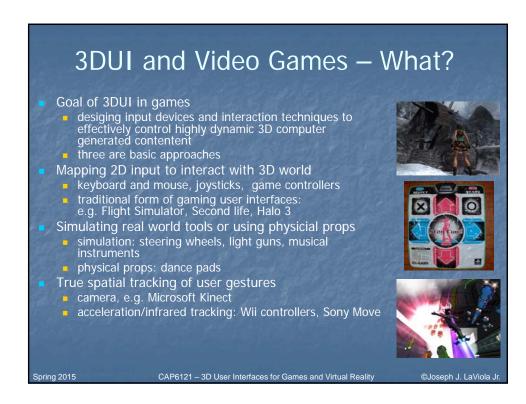

3DUI and Video Games - Why?

- Video games
 - multi-billion dollar industry: \$10.5 billion in 2005 in US
 - major driving force in home entertainment: average gamer today is 33 years old advanced 3D graphics in HOME rather then universities or movies studios
- Driving force in technological innovation
 - graphics algorithms and hardware, sound, AI, etc.
 - technological transfer to healthcare, biomedical research defence, education (example: Folding@Home)
- Recent innovations in 3D user interfaces
 - graphics is not enough anymore
 - complex spatial, 3D user interfaces are coming to home (example: Nintendo Wii)
- Why 3D user interfaces for games?
 - natural motion and gestures
 - reduce complexity
 - more immersive and engaging
- Research in 3D UI for games is exciting
 - will transfer 3DUI to other practical applications, e.g. education

Spring 2015

CAP6121 – 3D User Interfaces for Games and Virtual Reality

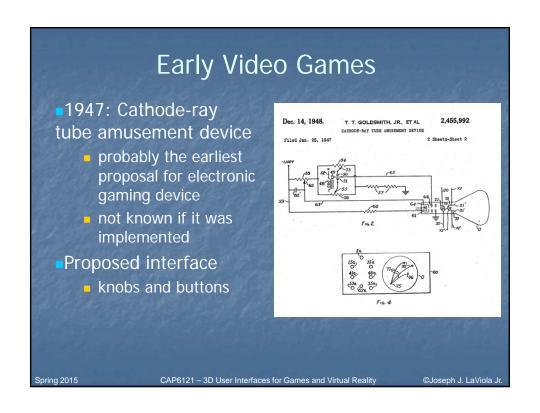

Lecture Outline

- Historical Perspectives
 - early consoles
 - arcades
 - early 3D/VR game interfaces
- 3DUI in the home today
 - new generation of game UI
- The Future of UI in games
 - AR/VR/mobile games
 - working towards the future
- Conclusions

Spring 2015

CAP6121 - 3D User Interfaces for Games and Virtual Reality

Historical Notes on Game UIS Spring 2015 CAP6121 – 3D User Interfaces for Games and Virtual Reality ©Joseph J. LaViola Jr.

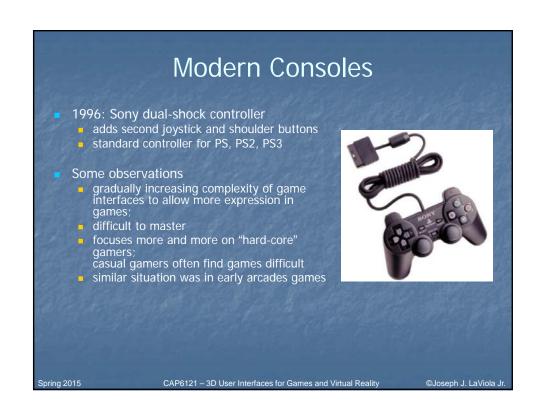

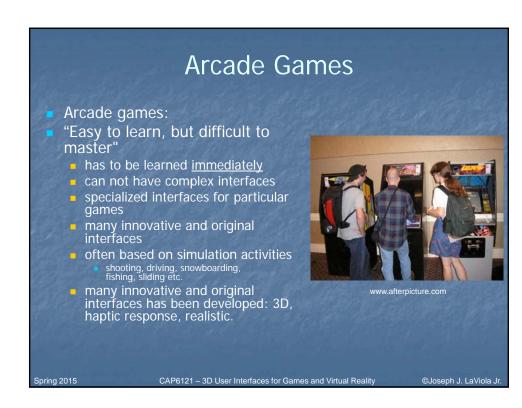

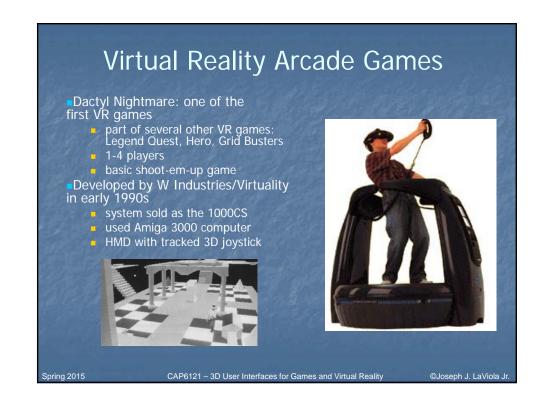

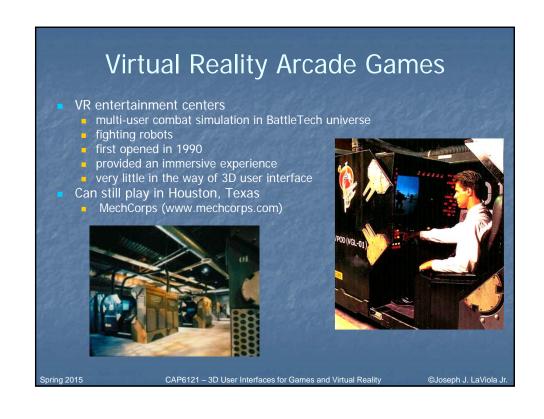

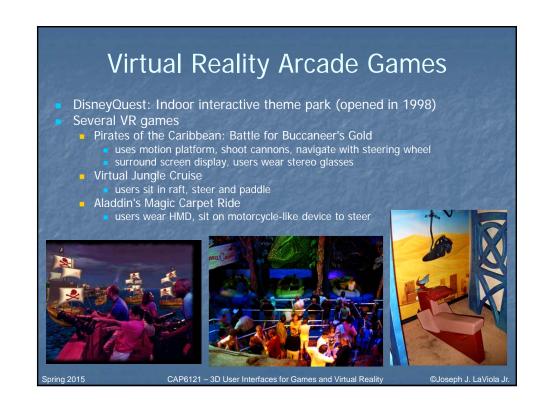

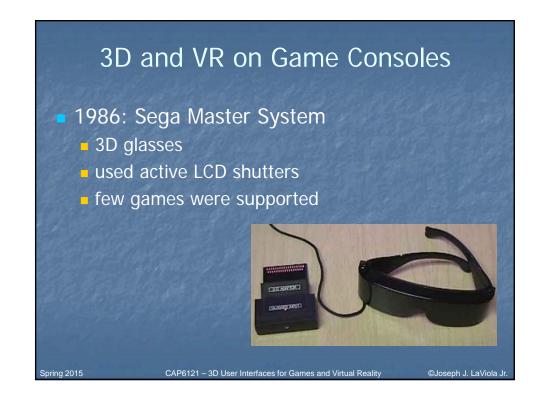

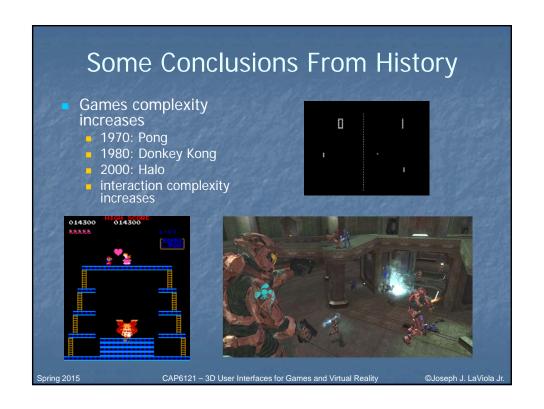

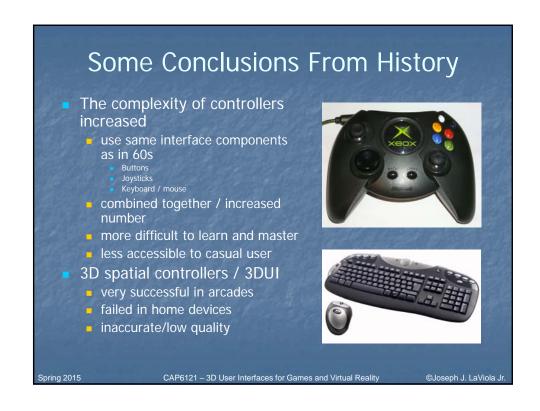

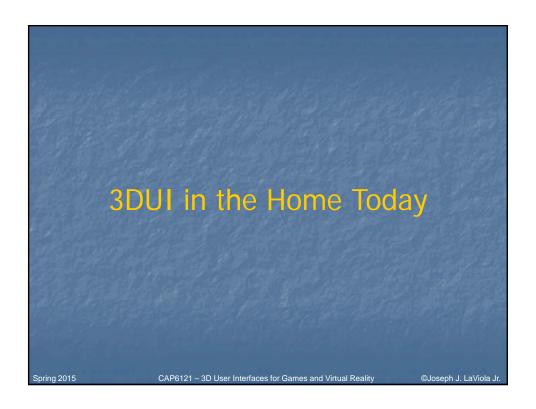

3DUI in the Home Today

- Revival and rapid growth of 3D spatial interfaces for games today
 - cheaper and higher quality of sensors
 - fast game hardware can perform complex tracking/recognition
 - need for simpler and more intuitive interaction with games
 - games has become mainstream culture, more casual not only hard-core gamers
- The first 3D UIs in people hands
 - often based on previous research results and ideas
 - simplified for price

3DUI in the Home Today

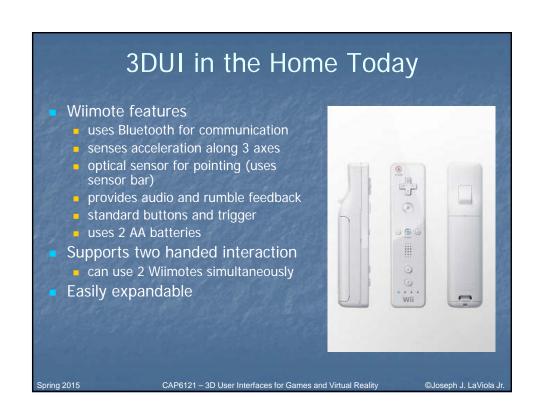

- 2003: Sony PS2 Eye Toy
 - video camera interface for PS2
 - casual/party games
 - significant success in Europe/US
 - based on several decades of research on visual tracking in robotics and computer vision
 - developed by Richard Marks

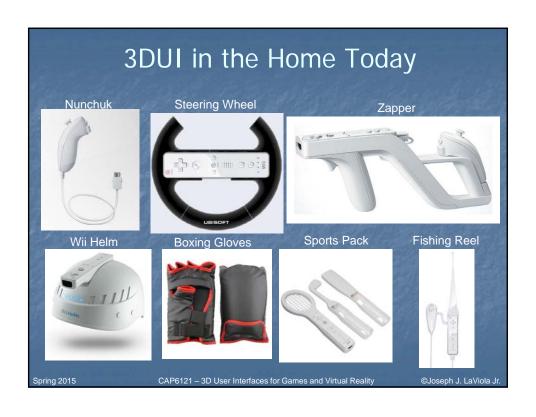

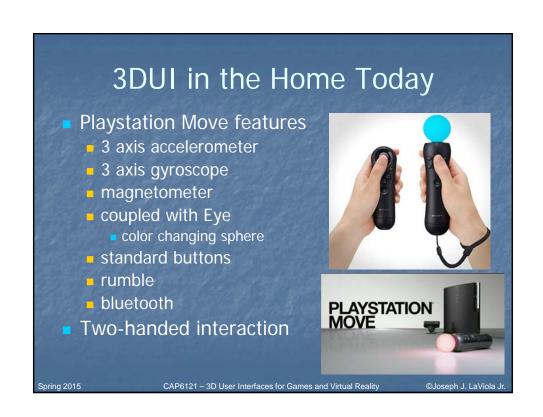

Spring 2015

CAP6121 - 3D User Interfaces for Games and Virtual Reality

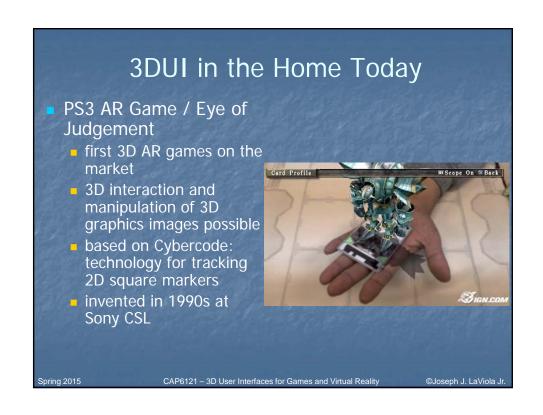

3DUI in the Home Today

- 3D HDTV
 - high resolution 1920x1080
 - high definition 1080p
 - no special graphics card needed
 - runs at 240Hz (120Hz each eye)as high as 480Hz
 - requires shutter glasses
 - 3D stereoscopic content sent to TV via DVI or HDMI port
- Play games in 3D
 - DVDs as well, TV channels
- DLP, LCD, LED, Plasma
- Latest 4K resolution

Spring 2015

CAP6121 - 3D User Interfaces for Games and Virtual Reality

Joseph J. LaViola Jr.

3DUI in the Home Today

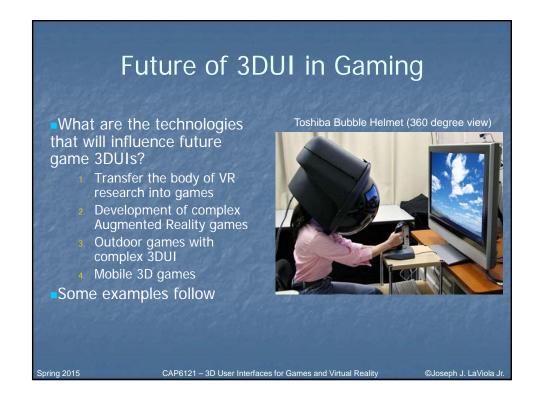

- Some observations/conclusions
 - renaissance of 3D / spatial user interfaces in gaming
 - for the first time very successful with public
 - attracts casual gamers
 - allows for easier introduction of new 3D user interfaces in the future
 - still very simplistic when compared with 3DUI developed in research labs
 - great possibilities for the future growth!

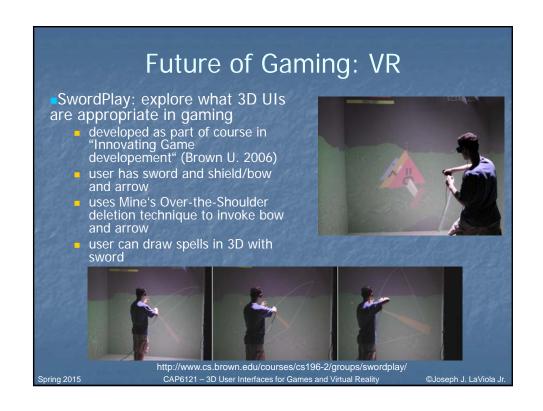

Spring 2015

CAP6121 - 3D User Interfaces for Games and Virtual Reality

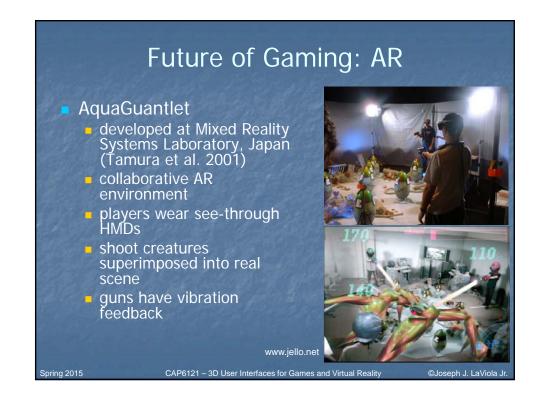

Moving Towards the Future of 3DUI and Games

- Body of knowledge on 3D user interfaces
 - interaction technique
 - interaction metaphors and styles
 - input devices
 - usability studies
- Want to transfer to the video game domain
 - reduce interaction complexity
 - provide more realistic experiences
 - exercise!!!

Spring 2015

CAP6121 – 3D User Interfaces for Games and Virtual Reality

Conclusions

- 3D UI for games is important and interesting research area
- Its real and possible to create new user interface culture
- Transfer to other areas of everyday human activity
- You can start developing 3D game user interfaces yourself

Spring 2015

CAP6121 - 3D User Interfaces for Games and Virtual Reality

@ losenh .L LaViola .L

Next Class

- Unity 3D Bootcamp begins
- The Video Game Motion controllers and you
- Readings
 - LaViola and Marks' SIGGRAPH 2010 course notes
 - Unity 3D Game Development by Example (Creighton)
