Fall 2017 CIS 3362 Homework #3 Grading Criteria

Each Question is worth 25 points. Full credit is awarded to any response which explains the process used (and its reasonable), states the correct keyword or substitution chart, and has solved the cipher. Take off 3 pts for not stating the correct keyword or substitution chart.

For any cipher that isn't solved, award a maximum of 15 of 25 points based on the description of the attempts tried to break it.
