

COP 3330 – Object-Oriented Programming – Summer 2007

Syllabus

Course Prerequisites: COP 3223

Class Meets: Monday & Wednesday from 10:00 - 11:50 am in HEC 118

Instructor: Dr. Mark Llewellyn

Office: HEC 236 **Office Hours:** Monday: 12:00 – 1:30pm
Tuesday 12:00 – 1:00pm
Wednesday: 12:00 – 1:30pm
Thursday: 12:00 – 1:00pm

Phone: 407-823-2790 (voice mail available)

E-mail: markl@cs.ucf.edu

Course Web Site: www.cs.ucf.edu/courses/cop3330/summer2007

Course Objective:

This course is designed to provide a fundamental understanding of the object-oriented programming paradigm using the Java language.

Texts: The following text is required:

Java Program Design 5.0, James Cohoon and Jack Davidson, 2006, McGraw-Hill,
ISBN: 0-07-296113-9

Grading:

Three exams will be given, a two regular exams and a final exam (somewhat cumulative). Exams are given once – be there as there are no dropped test scores. There will be between four and six programming assignments. Programs submission will be through WebCT, guidelines will be given later. The programming assignments are to be individual efforts.

Programming assignments (total)	25%
Exam #1 (on or about June 4 th)	25%
Exam #2 (on or about July 2 nd)	25%
Final Exam (TBD- regular class time – last day of class)	25%

Grading Scale:

90-100 = A, 80-89 = B, 70-79 = C, 60-69 = D, <60 = F

Plus/minus grading will be used in this course.

Some Important Dates:

No class: Monday May 28th – Memorial Day

Wednesday July 4th – Independence Day

Last Day to Withdraw: Friday June 15th

Final Exam: TBD

Topics To Be Covered:

1. Introduction to OOP and UML.
2. Objects and Classes – instance methods, constructors, parameter binding, static modifier, method overloading.
3. Exceptions and I/O streams.
4. Inheritance – extending classes, class hierarchies, constructors, interfaces, extending interfaces, designing classes.
5. GUI, containers, components, layout managers.
6. Design by abstraction, interfaces.

This is a general list of topics only and is subject to the needs of the class. It will be altered without notice, but will generally follow the same progression. At the end of each class I will tell you what we will be discussing during the next class period.

Open Lab Times:

There are no regularly scheduled labs for this course. TAs for the course will have office hours to answer any programming related questions that you may have and to assist you with the programming of your course assignments.

TA Information:

TAs for the course will be announced later and their contact information will be available on the course webpage.
