Summer 2002

Office Hours

Wednesday 2:30-3:30. Also by appointment. I will try to answer e-mail questions in a timely manner; concise questions are likely to elicit quicker responses.

Instructions

Please work independently.
Please turn in your work via email to the grader: cop4610ta@yahoo.com
There will be no make up exams, assignments, or tests.

The following question are taken from the class text "Advanced Java 2 Platform: How To Program"

3.6   Create class **LiabilityPieChartView** as a subclass of class **AssetPieChartView** (Fig. 3.8) that include only liability **Account**s (i.e., **Account** with negative balances). Modify class **AccountManager** (Fig. 3.10) to include a **LiabilityPieChartViiew**, in addition to the **AssetPieChartView**

3.7   Create a new version of class **AccountBarGraphView** (Fig. 3.7) that shows multiple **Account**s in a single bar graph. [*Hint*: Try modeling your class after **AssetPieChartView** to include multiple **Account**s.]

You are to turn in the java classes and anything else that is necessary to run your program.
Zip everything and send it to the grader.
