[www.cs.ucf.edu/~dwilliam](http://www.cs.ucf.edu/~dwilliam)

Summer 2002

### Office Hours

Wednesday 2:30-3:30. Also by appointment. I will try to answer e-mail questions in a timely manner; concise questions are likely to elicit quicker responses.

### Instructions

Please work independently.

Please turn in your work via email to the grader: [cop4610ta@yahoo.com](mailto:cop4610ta@yahoo.com)

There will be no make up exams, assignments, or tests.

Assignment is taken from the course text,

- 13.3 The current implementation of class **WeatherServiceImpl** downloads the weather information only once. Modify class **WeatherServiceImpl** to obtain weather information from the National Weather Service twice a day
  
- 13.4 Modify interface **WeatherService** to include support for obtaining the current day's forecast and the next day's forecast. Study the Traveler's Forecast Web page

<http://iwin.nws.noaa.gov/iwin/us/traveler.html>

You are to turn in the java classes and anything else that is necessary to run your program. Zip everything and send it to the grader.
