

Engineering Analysis – Fall 2009

Dan C. Marinescu

Office: HEC 439 B

Office hours: Tu-Th 11:00-12:00

Lecture 4

- Last time:
 - A first look at Matlab
 - Laplace Transform
- Today:
 - Applications of Laplace Transform for solving differential equations
- Next Time
 - Internal representations of numbers and characters in a computer.
 - More on Matlab

- See the class notes on Laplace Transform and its applications.
