

## COP 2930 Program #6 Grading Criteria

### Program A: Reg Pay Function (5 pts)

Header Comment & Style - 1 pt

Case for  $\leq$  work week works - 2 pts

Case for  $>$  work week works - 2 pts

### Program B: Overtime Pay Function (5 pts)

Header Comment & Style- 1 pt

No overtime case works - 2 pts

Overtime case works - 2 pts (can give 1 pt here if formula is close)

### Program C: Payment Calculator (10 pts)

Header comment - 1 pt

Style Issues - 1 pt

Copied functions - 1 pt

In main input one time input read appropriately - 1 pt

Loop for each week - 1 pt

Input for hours in loop - 1 pt

All three requested items are printed each week - 3 pts (1 per item)

At the end, correct total is printed - 1 pt (don't take off if this is wrong because of another error but accumulation was done correctly...)
