**GrammaTech, Inc.** is seeking to fill several permanent and temporary positions. We are a small software company, based in Ithaca, NY, specializing in language-based software development tools.

Our main product is CodeSurfer --- a unique tool that uses the results of advanced whole-program static analysis to provide assistance in program understanding and software assurance.

We also do a lot of government contract research. For more details, see [http://www.grammatech.com](http://www.grammatech.com).

Details of specific openings are as follows:

```
SOFTWARE ENGINEER E5-01

GrammaTech is seeking a Software Engineer to become an integral part of our research and development team. Successful candidates will be involved in all aspects of research and development for our CodeSurfer-related products.

Requirements:
- US citizenship
- BSCS + 3 years experience, or MSCS + 1 year experience
- Fluency in C/C++

Highly desirable:
- Proficiency with Scheme and/or Lisp
- Compiler theory, static analysis, or software security
- x86 machine code

Please note that **US CITIZENSHIP is REQUIRED** for this position.

COMPUTER SCIENCE INTERNS I5-01

GrammaTech is seeking to fill several intern positions for summer of 2005. Candidates should be enrolled in a BS in Computer Science, and should be skilled programmers. We are particularly interested in students who have taken the following courses:

- Compilers
- Data Structures/Algorithms
- Programming in Scheme/Lisp

Candidates must have legal authority to work in the US.
