# Fall 2026 CIS 3362 Homework #3 Grading Criteria

1) 15 pts – 5 points for stating the Playfair square, 10 points for the decryption, give partial as you see fit (probably proportionally or just take off a point or 2 for each error you see)

2) 15 pts – 9 points for discussing their process with work included and 6 points for the answers, 1 point per answer. They can list either the encrypting or decrypting matrices.

3) 30 pts – 20 points for the process, 10 points for the answer, give partial as you see fit

4) 40 pts – 25 points for the process, 15 points for the answer, give partial as you see fit. If the write up looks authentic (ie not made by AI) and the student was conscientious and spent a reasonable amount of time, give 20 points.
