COP 3330 Fall 2026 Grading Criteria Program 4
Total: 30 points

Code and Style Points (10 pts) – Awarded by looking at code

Both files have header comments – 1 pt
Has reasonable internal comments – 3 pts
All Methods in Ticket are filled in and seem to return the correct type – 3 pts
All Methods in Inventory are filled in and seem to return the correct type - 3 pts

Execution Points (can only earn of code compiles)

Points for first sample posted – 5 pts
Points for second sample posted – 5 pts
Points for third sample posted – 10 pts

You may give partial credit if you see that certain features give the correct output and others don't. Here is how credit would be assigned by feature:

Buy tickets region 1 –	3 pts
Buy tickets region 2 or 3 –	4 pts
Buy tickets region 4 or 5 or 6 –	5 pts
Too many tickets any region –	2 pts
Option 2 –	3 pts
Option 3 –	3 pts

So if everything works except for someone's option 3, you can just take off 3 pts total. Use your discretion to award something you think is fair.
