COP 3330 Fall 2026 Grading Criteria Program 5
Total: 30 points

Code and Style Points (10 pts) – Awarded by looking at code
All Framework Code exists modified only if necessary – 2 pts
General Style (comments, variable names, etc.) in Files – 4 pts
Ease of using README file - 4 pts

Requirement Points (5 pts)
TicketApplication.java is submitted and has a main – 2 pts
Class inheriting from Ticket or VIPTicket exists and has reasonable functionality – 3 pts

Execution Points (can only earn of code compiles)
TA figured out how to use it – 3 pts
toString polymorphism is testable and works – 3 pts
New method polymorphism exists, is testable and works – 3 pts
You were able to test selective functionality and instanceof operator working – 3 pts
Application was fun and detailed – 3 pts

Note: 1) If the first three points aren't earned, the last 12 can not be earned.
2) You may give any level of partial credit for "fun and detailed" as you see fit. This is 100% TA discretion. I would like to see a range of scores on this in between 1 – 3 for anything that runs.
