# Department of Computer Science

# Mobile Device Policy

This policy applies to all Roaming Devices purchased on departments or projects that are under the control of the Computer Science department of the College of Engineering and Computer Science at the University of Central Florida, and that are currently assigned or being actively used by any employee.

Effective Date: 07/01/2020

Scope: Roaming devices obtained on or after 07/01/2020

## Definitions

Roaming Device: A mobile device is defined as any device that will be changing on campus locations more than two times in a fiscal year period (07/01 – 06/30) of that year, any computing device that will leave campus property at any time during fiscal year period (07/01 – 06/30) of that year. Examples include but are not limited to are laptops, tablets, and cell phones. Final rulings of whether something is considered a roaming device are at the discretion of the departmental property manager.

MDM: This is a mobile device management service and helps to make sure that the device is up to date, in compliance with UCF Policy, and provides extra tools for remote assistance.

## Policy

All roaming devices must have an active MDM subscription sold by the UCF Technology Product Center for the device to be in use or in the possession of an employee. Devices that are no longer in use, or that no longer have an active MDM subscription shall be returned to the department property manager for reassignment or removal.

A subscription can be purchased from the UCF Technology Product Center by visiting www.tpc.ucf.edu, or by requesting it on the Departmental Ordering System.

## Questions

For questions, please contact the Departmental Property Manager.
